OWNER'S MANUAL

PLEASE READ BEFORE OPERATING THIS EQUIPMENT.

MODEL: MHT913R

Size: 142(W) x 210(H)mm (A5)

IMPORTANT SAFETY INSTRUCTIONS

CAUTION

RISK OF ELECTRIC SHOCK DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

FCC Warnings

WARNING Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Before using the unit, be sure to read all operating instructions carefully. Please note that these are general instructions for a variety of consumer products; therefore, this unit may not have the capability to be connected to an outdoor antenna.

1. Read these instructions
All the safety and operating instructions should be read before the product is operated.

2. Keep these instructions
The safety and operating instructions should be retained for future reference.

3. Heed all warnings
All warnings on the product and in the operating instructions should be followed.

4. Follow all instructions
All operating and use instructions should be followed.

5. Do not use this apparatus near water
Do not use the product near water - for example, near a bathtub, washbowl, kitchen sink, laundry tub, in a wet basement, or near a swimming pool.

6. Clean only with dry cloth
Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a dry cloth for cleaning.

7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
Slots and openings in the cabinet and in the back or bottom are provided for ventilation. To ensure reliable operation of the product and to protect it from overheating, these openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surface. This product should never be placed near or over a radiator or heat register. This product should not be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacturer's instructions have been adhered to.

8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

11. Only use attachments/accessories specified by the manufacturer.

12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

13. Unplug this apparatus during lightning storms or when unused for long periods of time.

14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture does not operate normally, or has been dropped.

15. Power Source
The product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your product dealer or local power company. For products intended to operate from battery power, or other sources, refer to the operating instructions.

16. Power lines
An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

17. Overloading
Do not overload wall outlets and extension cords as this can result in a risk of fire or electric shock.

18. Object and liquid entry
Never push objects of any kind into the product through as they may touch dangerous voltage points or short out parts that could result in fire or electric shock. Never spill or spray any type of liquid on the product.

19. Outdoor antenna grounding
If an outside antenna is connected to the product, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges. Section 810 of the National Electrical Code, ANSI/NFPA 70, provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes and requirements for the grounding electrodes.

20. Service
Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

21. Replacement parts
When replacement parts are required, be sure the service technician uses replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire or electric shock or other hazards.

22. Safety check
Upon completion of any service or repairs to this product ask the service technician to perform safety checks to determine that the product is in proper operating condition.

23. Wall or ceiling mounting
The product should be mounted to a wall or ceiling only as recommended by the manufacturer.

24. Damage requiring service
Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
a. When the power-supply cord or plug is damaged.
b. If liquid has been spilled or objects have fallen into the product.
c. If the product has been exposed to rain or water.
d. If the product does not operate normally by following the operating instructions.
Adjust only those controls that are covered by the operating instructions, as an adjustment of other controls may result in damage and will ‘require extensive work by a qualified technician to restore the product to its normal operation.
e. If the product has been dropped or the cabinet has been damaged.
f. When the product exhibits a distinct change in performance - this indicates a need for service.

25. Note to CATV system installer
This reminder is provided to call the CATV system installer's attention to Article 820-40 of the NEC that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

Note:
Refer all servicing to qualified service personnel. Servicing is required when the unit has been damaged any way such as the following: the power-supply cord or plug has been damaged, liquid has been spilled into the unit, the unit has been exposed to rain or moisture, does not operate normally, has been dropped or the unit does not operate normally.

POWER SOURCE

Battery Recharging:

The unit has a built-in Li-ion rechargeable battery, recharge it before first time use or when needed as follows:

1. Connect the small plug from the supplied USB Connection Cable to the DC IN Jack (Mono 3.5mm) on the rear of the unit.
2. Connect the full size USB plug from the supplied USB Connection Cable to the USB Port on the supplied AC/USB Adaptor.
3. Connect the AC/USB Adaptor with rating AC 100-240V~, 50/60Hz as illustrated below:

4. During charging, the Red Charging Indicator on the front of unit will illuminate. When finished charging, it will turned off.

NOTES:
- This AC/DC Adaptor is intended to be correctly orientated in a vertical or floor mount position.
- To save energy, unplug the AC/USB Adaptor from the wall outlet if you will not use it for an extended period of time.
- During charging, you can also play and listen music at the same time.

IMPORTANT:

Your battery will last longer if you follow these simple guidelines for charging and storing.
A. Before first time use, recharge for about approximately 4 hours until the unit is fully recharged.
B. Recharge and store the unit within the temperature range of 5°C - 35°C (40°F -95°F).
C. Do not overcharge (longer than 24 hours). Excessive charging or running the unit until the battery is fully drained will damage the battery. Battery life will be extended if you keep the battery fully charged.
D. Battery life naturally shortens slowly over time.
E. The rechargeable battery incorporated in this product is not user replaceable.

LOCATION OF CONTROLS

1. Standby/BT Indicators
2. Charging Indicator
3. POWER ON/OFF switch
4. ⏻ Button
5. VOL (Volume) + button
6. VOL (Volume) - button
7. USB port (For DC IN)
8. LINE IN Jack

LOCATION OF CONTROLS- REMOTE CONTROL

1. ⏻ Button
2. ⏻ Button
3. VOL (Volume) - button
4. VOL (Volume) + button
5. ⏮ (Skip Backward) button
6. ⏭ (Skip Forward) button

BATTERIES INSTALLATION (REMOTE CONTROL)

For first time use, slide the insulation film from the battery door and discard it as in the figure below.

To replace the button cell:
1. Push the tab, then slide out the battery tray as the figure on the right.
2. Replace the old button cell by a new CR 2025 button cell as the polarity markings on the remote control.
3. Close the battery tray.

BATTERY PRECAUTIONS

Follow these Battery Precaution when using a battery in this device:
1. Use only the size and type of battery specified.
2. Be sure to follow the correct polarity when installing the battery as indicated in the battery compartment. A reversed battery may cause damage to the device.
3. Do not mix different types of batteries together (e.g. Alkaline and Carbon-zinc) or old batteries with fresh ones.
4. If the batteries in the device are consumed or the device is not to be used for a long period of time, remove the batteries to prevent damage or injury from possible battery leakage.
5. Do not try to recharge non-chargeable batteries. It can overheat and rupture. (Follow battery manufacturer's instructions.)
6. Do not dispose of battery in fire. Battery may explode or leak.
7. Clean the battery contacts and those of the device prior to battery installation.
8. ⚠ This product contains a coin/button cell battery. If the coin/button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death. Keep new and used batteries away from children. If the battery compartment does not close, stop. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

EFFECTIVE DISTANCE OF REMOTE TRANSMITTER

NOTES:
- When there is an obstacle between the unit and the transmitter, the transmitter may not work.
- When direct sunlight, an incandescent lamp, fluorescent lamp or any other strong light shines on the REMOTE SENSOR of the unit, the remote operation may be unstable.

OPERATION

BT (BLUETOOTH):

⏻ PAIRING:

For first time use or re-pairing the unit to a new BT Device, follow the instructions below:
1. Slide the POWER ON/OFF Switch on the right side of unit to ON position to turn the unit to Standby Mode. The Red Standby Indicator on the front of unit will illuminate.
2. Press and hold the ⏻ Button on the unit or press the ⏻ Button on the Remote Control to power on the unit from Standby Mode. The Blue BT Indicator on the front of unit will illuminate and flash.
3. Power on the external BT Device and enter to BT searching mode. Start pairing following the on screen instructions from the external BT Device. After paired, the Blue indicator will stop blinking.
4. Play the music on the paired BT Device as usual.
5. During playback:
   - Press and release the ⏻ Button on the unit or the ▶II Button on the Remote Control to pause; press again to resume normal playback.
   - Press and hold the VOL (Volume) +/- Buttons on the unit or press and release the VOL (Volume) +/- Buttons on the Remote Control to adjust volume level as desired.
   - Press and release the VOL (Volume) +/- Buttons on the unit or press the ⏮ / ⏭ Buttons on the Remote Control repeatedly to skip tracks.
6. To shut off the unit, press and hold the ⏻ Button on the unit or press the ⏻ Button on the Remote Control. The color of the Standby/BT Indicator will turns to Red.

Notes:
- Make sure the Line In Connection Cable is NOT plugged in the LINE IN Jack. Otherwise, BT will not functioning. Unplug it from the LINE IN Jack before using BT.
- To save energy, slide the POWER ON/OFF switch to OFF position and unplug the AC/USB Adaptor from wall outlet if you will not use the unit for an extended period of time.
- When the external BT Device searched the unit, our model number "MHT913R" will appear on the display of external BT Device.
- Pairing code "0000" or "1234" may need to be entered.

Normal operation after paired:

1. Press and hold the ⏻ Button on the unit or press the ⏻ Button to power on the unit from Standby Mode. The Blue BT Indicator on the front of unit will illuminate and blink.
2. Wait a few seconds until the unit is automatically paired to the external BT Device. (The Blue Indicator will stop blinking).
3. Place the music in the paired BT Device as usual.

LISTENING FROM LINE IN JACKS

1. Connect the Headphone/Earphone: AUX out; Line out jacks to external audio/video player (such like MP3 player; Discman ... etc) to the LINE IN jacks on the unit by the supplied Audio Connection Cable in the Accessories.
2. Slide the POWER ON/OFF Switch on the right side of unit to ON position to turn the unit to Standby Mode. The Red Standby/BT Indicator on the front of unit will illuminate.
3. Press and hold the ⏻ Button on the unit or press the ⏻ Button on the Remote Control to power on the unit from Standby Mode. The Blue Standby/BT Indicator on the front of unit will illuminate and blink.
   Note: If unplug the Line In Connection Cable from the Line In Jack. The unit will turn to BT mode automatically and the color of STANDBY Indicator will turns to blue.
4. Press the VOL +/- buttons to adjust volume levels as desire.
5. Press the ▶II button on the Remote Control to mute the sound temporary, press again to resume.
6. To shut off the unit, press and hold the ⏻ Button on the unit or press the ⏻ Button on the Remote Control to turn the unit to standby mode.

NOTE: To saving the electric power, slide the POWER ON/OFF switch to OFF position and unplug the AC/USB Adaptor from wall outlet if long period of time will not use.

TROUBLESHOOTING

Check the following before requesting service:

SYMPTOM	POSSIBLE CAUSE	POSSIBLE SOLUTION
Can't power on	Built-in battery consumed	Recharge the battery as page 3
No sound or sound weak	Volume of the unit was set to minimum position	Increase the volume to press and hold the VOL + Button on the unit or press the VOL + Button on the Remote Control.
	Volume level of paired/connected device is in low level	Rise the volume level of the paired/connected device
Sound distortion	Volume level too high	Reduce the volume level by press and hold the VOL - Button on the unit or press the VOL - Button on the Remote Control.
	Volume level of the connected/paired device too high	Reduce the volume level of the connected/paired device
BT not functioning	The external BT Device had NOT paired to the unit	Pair the external BT Device to the unit as page 5 & 6
	The external BT device too far from the unit	Place the external BT device close to the unit

SPECIFICATIONS

Power source:	Built-in DC (ø3.3 7V, 1000mAh (3.7WH) rechargeable Li-ion Battery. Recharge by DC(ø5V, 1500mA through AC/USB Port
Impedance of the speakers:	4 Ω (Full Range)
Audio power:	2 x 3W (Total 6W RMS)
BT Version:	4.0
BT Operation Distance:	36 Feet in opera area

PACKAGE INCLUDES:

1 x User's Manual
1 x Remote Control (Uses 1 x CR2025 Button Cell, included)
1 x AC/USB Adaptor (Input: AC 100-240V~ 50/60Hz, 0.4A, Output: DC mr5V, 1500mA)
1 x Audio Connection Cables with 3.5mm Plugs
1 x USB Connection Cable (For Charging only)

Maintenance

1. Do not use harsh or abrasive cleaning agents or solvents.
2. Do not attempt to disassemble your product.
3. Do not paint your product.
4. Do not drop, throw or try to bend your product.
5. Do not expose your product to open flames.

LIMITED WARRANTY

Craig Electronics warrants this product to be free from manufacturing defects in material and workmanship under normal use for a period of 180 days from date of purchase. If service is required, please return the product to the store where it was purchased for exchange, or pack the unit in the original packing material with all accessories if applicable, a copy of your sales receipt and a Cashier's check or Money Order for $7 (to cover shipping and handling costs) payable to Craig Electronics Inc. For consumers in Canada, please make sure that the cashier check or money order is denominated through a U.S. bank. Ship your product freight pre-paid. Your unit will be repaired, replaced or if the unit can not be repaired or replaced, a refund will be forwarded to you within four weeks of receipt of your unit. Please ship your unit to:

This warranty is void if the product has been: a) Used in a commercial application or rental. b) Damaged through misuse, negligence, or abuse. c) Modified or repaired by someone other than an authorized Craig service center. d) Damaged because it is improperly connected to other equipment.

This warranty does not cover: a) Damage incurred during shipment as outlined in the Owner's Manual which can be performed by the customer. b) Damage to equipment not properly connected to the product. c) Any cost incurred in shipping the product for repair. d) Damage to the product not used in the USA.

This limited warranty applies to the original purchase. Any implied warranties, including the warranty of merchantability, are limited in duration to the period of this express warranty and no warranty whether expressed or implied shall apply to the product thereafter.

Under no circumstance shall Craig be liable for any loss or consequential damage arising out of the use of this product, or any implied warranty rights. However, you may have other rights which may vary from state to state. Some states do not allow limitations on implied warranties or exclusion of consequential damage. Therefore, these restrictions may not apply to you.

This product has been manufactured by and is sold under the responsibility of Craig Electronics Inc. and Craig Electronics Inc. is the warrantor in relation to this product.
