FCC NOTICE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide residential protection against harmful interference in a residential installation.

FCC NOTICE: To assure continued compliance, follow the attached installation instructions and use only shielded cables when connection to other devices.

Before using the unit, be sure to read all operating instructions carefully. Please note that these are general precautions and may not pertain to your unit.

- 1. Read these instructions All the safety and operating instructions should be read before the product is operated.

- 2. Keep these instructions The safety and operating instructions should be retained for future reference.

- 3. Heed all warning All warnings on the product and in the operating instructions should be adhered to.
4. Follow all instructions All operating and use instructions should be followed.
5. Do not use this apparatus near water Do not use the product near water and moisture.

- 6. Clean only with dry cloth Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.

- 8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

- 9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other.

- 12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

- 13. Unplug this apparatus during lightning storms or when unused for long periods of time.

- 14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture does not operate normally, or has been dropped.

- 15. Power Source The product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your appliance dealer or local power company.

- 16. Power lines An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits.

- 17. Overloading Do not overload wall outlets and extension cords as this can result in a risk or fire or electric shock.

- 18. Object and liquid entry Never push objects of any kind into the product through as they may touch dangerous voltage points or short out parts that could result in fire or electric shock.

- 19. Outdoor antenna grounding If an outside antenna is connected to the product, be sure the antenna system is grounded so as to provide some protection against voltage surges and built up static charges.

- 20. Service Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards.

- 21. Replacement parts When replacement parts are required, be sure the service technician uses replacement parts specified by the manufacturer of those that have the same characteristics as the original part.

- 22. Safety check Upon completion of any service or repairs to this product ask the service technician to perform safety checks to determine that the product is in proper operation condition.

- 23. Wall or ceiling mounting The product should be mounted to a wall or ceiling only as recommended by the manufacturer.

- 24. Damage requiring service Unplug the product from the wall outlet and refer servicing to qualified service personnel under the following conditions:

- a. When the power-supply cord or plug is damaged.
b. If liquid has been spilled or objects have fallen into the product.
c. If the product has been exposed to rain or water.
d. If the product does not operate normally by following the operating instructions.

- e. If the product has been dropped or the cabinet has been damaged.
f. When the product exhibits a distinct change in performance—this indicates a need for service.

- 25. Note to CATV system installer This reminder is provided to call the CATV system installer's attention to Article 820-40 of the NEC that provides guidelines for proper grounding, and in particular, specifies that the cable ground shall be connected to the grounding system of the building as close to the point of cable entry as practical.

Note: Refer all servicing to qualified service personnel. Servicing is required when the unit has been damaged in any way such as the following: the power-supply cord or plug has been damaged, liquid has been spilled into the unit, the unit has been exposed to rain or moisture, the unit has been dropped or the unit does not operate normally.
