POWER SOURCE:

Install or replacing the batteries when it is drained as follows:

1. Open the battery door on the rear of the unit by pressing the tab and then lifting it as the illustrated below.
2. Install two (2) x AAA size batteries (not included) into the battery compartment follow polarity markings inside.
3. Close the battery door.

BATTERY PRECAUTIONS:

Follow these Battery Precaution when using a battery in this device:

1. Use only the size and type of battery specified.
2. Be sure to follow the correct polarity when installing the battery as indicated in the battery compartment. A reversed battery may cause damage to the device.
3. Do not mix different types of batteries together (e.g. Alkaline and Carbon-zinc) or old batteries with fresh ones.

4. If the batteries in the device is fully drained or the device is not being used for a long period of time, remove the batteries to prevent damage or injury from possible battery leakage.
5. Do not try to recharge the battery it is not intended to be recharged; it can overheat and rupture. (Follow battery manufacturer's instructions.)
6. Do not dispose of battery in fire. Battery may be exploded or leaked.
7. Clean the battery contacts and also those of the device prior to battery installation.

SETTING UP:

You must set up the Universal Remote before operating with your device as follows:

Setup with device code:
1. Power on your desired device (Ex: TV) as usual.
2. Find the four (4) digit device code for it in the attached Code List.
3. Press and hold the Code Search Button approximately 2 seconds until the LED Indicator is illuminated then release the button.
4. Press and release the corresponding device selection button on the Universal Remote (such as TV Button).
5. Enter the four (4) digit code for your device by pressing the numeric buttons. The LED Indicator will turn off.
   (If the code is invalid, the Indicator will blink 5 times then auto exit. Repeat the setting procedures from 2-5 again to reset a valid code.)
6. Aim the Universal Remote to the remote sensor for you device then operating the device. If the device responds correctly, it means you have entered the right code.

NOTE:
If the codes provided do not work to pair the Universal Remote to your device, try the following methods.

Auto Setting:

1. Power on your desired device (Ex:TV) as usual.
2. Press and hold the Code Search Button approximately 2 seconds until the LED Indicator is illuminated then release the button.
3. Press and release the corresponding device's selection button of your device (such as TV Button).
4. Aim the Universal Remote to the remote sensor of your device, then press the ⏻ POWER Button until the LED indicator is twinkling to turn off your device.   If it doesn't work right away, check if right aim or reset from step 2.   The A different infrared signal of "Power off" is sent every 4 seconds.
5. Once your device is shut off, press the ENTER Button within 4 seconds to save the setting and exit.
6. Aim the Universal Remote to the remote sensor of your device then operate the device with the Universal Remote. If the device is responding correctly, it means you have right settings. Otherwise, set it again starting from step 2 or try the following setting methods.

Manual setting:

1. Power on your device (EX: TV) as usual.
2. Press and hold the Code Search Button approximately 2 seconds until the LED Indicator is illuminated then release the button.
3. Press and release the corresponding device selection button for your desired device (Ex: TV Button).
4. Aim the Universal Remote to the remote sensor for your device (such like TV) then press and release the ⏻ POWER Button repeatedly to send different infrared signal of "Power off".
5. Once your device is shout off, press the ENTER Button within 4 seconds to save the setting and exit.
6. Aim the Universal Remote to the remote sensor for your device (Ex: TV) then operation the device with the Universal Remote. If the device (Ex: TV) is responding correctly, it means you have set the remote to the correct settings.
OPERATION:

1.   Repeat the setting procedure until all desired devices (up to 4 devices) have been set.
2.   Press the desired device selection button (Ex: TV) on the Universal Remote.
3.   Aim the Universal Remote to the remote sensor of you device then operation the device with the Universal Remote.
